Artemide  
App

Funivia is inclusive, housing products that already exist; the cable connection module is a universal system that translates energy into a “Esperanto” of light.

Funivia Outdoor shows the potential of this open platform, hosting products already included in Artemide’s collections.

It is a sign of the dialogue and shared values among the architects who design for Artemide, who embrace common principles expressed through different languages according to the skill of each individual designer.

Thanks to these properties Funivia has evolved into a system capable of accommodating our light needs in outdoor too.

Its cable can build structures which run in outdoor spaces bringing professional light to places where it had previously been impossible.

Minimal installation work allows to distribute quality also in open spaces with a dynamic and intelligent light which, thanks to Artemide App, can liaise with the environment in respect of the rhythms of nature and a correct energy balance.

In Funivia, innovation is a sustainable dialogue that overcomes the limits of all spaces.

# Funivia is fully addressable

Each lighting appliance can be managed separately by Artemide App ensuring real-time interaction.

# Funivia is compatible with **Artemide App**

Artemide App is a user-friendly and intuitive interface used to control individual products, groups of appliances and lighting scenarios. It is a tool that can be associated with several products from both the Design and the Architectural Catalogues.

Download Artemide App  
and find more information on  
[artemide.com](https://www.artemide.com)

# Funivia is INTEGRALIS®

INTEGRALIS® is an innovative light, perfectly integrated into the products of the Artemide collections, that sanitizes spaces.

INTEGRALIS® combines sanitizing efficacy with luminous performance and design beauty.

It also integrates itself in both the environments and moments of life by interpreting the rhythms and needs of mankind.

INTEGRALIS® is managed by Artemide App, a digital interaction system accessible to all.

INTEGRALIS® was born from Artemide's scientific and technological research and humanistic and social vision.

INTEGRALIS® is a project that associates and integrates the visible and invisible spectral range in an innovative formula capable of regenerating the environmental qualities of the space.
