

## LED STRIPS & PROFILES

# CONTENTS

Redesign the lighting of your rooms with aluminium profiles and LED strips!

LED strips and aluminium profiles conjure a pleasant ambience in your home and give it highlight, no matter if you attach these LED profiles to the wall or to the furniture.

Find inspiration in the large selection and decide for yourself where you want to create a pleasant ambience with indirect lighting.

PROFILES		SURFACE MOUNTED PROFILE	<b>p. 6 - 7</b>

		CORNER CONNECTORS	<b>p. 22 - 25</b>
		LED STRIPS	<b>p. 26 - 27</b>

# PROFILES

Aluminium profiles have rapidly turned into a popular component of modern LED lighting. Using hardly any effort, you can turn an LED strip and a profile into a beautifully designed luminaire.

Simply stick the LED strips into the profiles for an elegant and noble ambience.

The profiles are made of light and refined aluminium. Choose between different shapes and sizes your favourite piece and let free your creative imagination.

- ADVANTAGES**
- › easy installation
  - › different shapes and sizes
  - › variety of colours
  - › profiles give LED strips a nobler design
  - › protection against mechanical stress on the LED strips

# CORNER CONNECTORS

inside / outside

To make the assembly of the profiles even easier for you, there are also prefabricated corner connectors.

Do you want to place an LED profile in a corner of your living room? It's quite easy with the 90 degree corner connectors that require no mitre-box

saw. The corner connectors are available in various designs to match their aluminium profile. They can be used for both inside and outside corners.

Use our practical system for individual room lighting.

## ADVANTAGES

- › prefabricated 90° corner connectors
- › no mitre-box sawing necessary
- › easy installation
- › can be used for inside and outside corners
- › mounting included

# STRIPS

A new flair in your home

IP20

The new flexible LED strips offer you ideal solutions for the most exceptional lays of light. Thanks to the free formability they offer ideal illumination, even in corners. LED strips of different lengths and for many applications are simply attached with an adhesive tape. Depending on the desired mood, you can select LED strips with warm white

light or an appropriate lighting programme – from indirect lighting in the kitchen glass case to the living room.

[Find inspiration in this range!](#)

ADVANTAGES

- > freely formable
- > self-adhesive
- > separable every 10 cm
- > optimal illumination even in corners
- > no soldering or intermediate piece necessary
- > ideal for corner solutions
